

Hi John,

I am an owner in Newport Terrace. My husband and I have lived here for almost 7 years. What was supposed to be our starter home has turned more permanent due to the downward market after we purchased it. In any event, I want to thank you (and the Board) for all of your hard work. Since you moved to our rather dilapidated community, I feel as if your caring attitude has brought significant change to our community.

The aesthetics of our community as well as some significant and serious drug related issues with a rental unit next to me (resolved by former board members and Newport Beach PD) have been a source of concern for me and my husband for years. I work full time and have two young children so I do not have the time to give to our community as I would like.

Yet, I want you (and the Board) to know that your dedication and hard work to making this community better does not go unnoticed or unappreciated.

Very Truly Yours,
Stacy A. Bradfield
Ford, Walker, Haggerty & Behar, LLP

Stacy,

I want to personally thank you and your husband for your kind comments and for taking the time to express your appreciation. I do what I can for the community, for I know in the long run it is well worth it and will certainly pay off.

Sincerely,

John Sisker – Vice President
Newport Terrace Board of Directors
